1. This reservoir is designed for stationary installations, any mobile installations are subject to factory review.

2. Do not ship this unit full of oil (applies to 50+ gallon reservoirs).

3. This reservoir is thoroughly cleaned, a rust inhibitor applied to the interior, and prime painted gray prior to shipment. Any subsequent cutting or welding on the unit could cause contamination and will void the warranty.

4. Operating temperature is 180°F maximum. For higher temperatures consult factory.

5. All ports are plastic plugged and protected for shipping. Leave these in place until the unit is final painted or finish assembled. If painted, after assembly, plug and protect all openings into the reservoir.

7. Recommended assembly torque: end cover (15 ft-lb), sight glass (60 in-lb).
