

FLOW SIGHTS

F560 SERIES

Wide view flow sights with a restrictor orifice and cylindrical sight provide maximum 360° visual observation of fluid flow, color and clarity. Mount on the downstream side of vertical lines on cooling or lubricating systems.

Standard Materials:

- Aluminum construction
- Clear polymer sight
- Buna N seals

Temperature and Pressure Ratings:

- Maximum working temperature up to 140°F (60°C)
- Maximum working pressure of orifice up to 125 PSI (862 kPa)
